International Math Competition

The International Math Competition exists to identify and elevate exceptional mathematical thinkers within our global ACSI community. Each student competes against other students in their grade and category. The areas of competition include arithmetic computation and mathematical reasoning. This year, nearly 7,000 students representing four countries participated in Level 1, showcasing the strength of mathematical excellence within ACSI schools globally.

Congratulations to the 18 TCS students from grades 3-8 who qualified to compete in Level 1. We would also like to congratulate **Nathanael Gado, Josie Kelly, and James Thomas** for qualifying to compete in Level 2 of the competition, which will be held later this month!

Our Elementary Bake Sales are this month! Students are raising money to support **Allow the Children**. Stay tuned for more details!

Read For The Record

The TCS Pre-K students participated in Jumpstart's Read for the Record day in February.

This special event is designed to raise awareness about the importance of early literacy by uniting millions of people around the globe to read the same book on the same day. Read for the Record helps foster a love of reading.

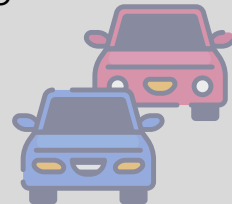

We were thrilled to be able to participate!
